They allow the registration of:

Voting rights of Nominees N are to be exercised on the basis of voting instructions received from the beneficial owners. The Nomination Committee periodically reviews the composition of the Board using various criteria, including, without limitation:

- the Board's cumulative experience and expertise in (international) business leadership, legal/compliance/risk management, science, finance, marketing, IT, technology, government/politics, sustainability and other relevant fields;
- diversity of competencies including education, function, industry and geographic business experience;
- the Board's diversity of personal attributes including gender, age, ethnicity, nationality, culture and leadership approach;

The Board should at all times be composed of:

- a majority of independent members; and
- members with the specific abilities or skills to serve on one or more of the various Board Committees.

3.5.2. Tasks and area of responsibility for each Committee of the Board of Directors ^(a)

The powers and responsibilities of each Committee are established in the applicable Committee Charter, which is approved by the Board. Each Committee is entitled to engage outside counsel. After each Committee meeting, its Chair reports to the full Board.

Chair's and Corporate Governance Committee

The Chair's and Corporate Governance Committee consists of the Chair, any Vice Chair, the Lead Independent Director, the CEO and any other member elected by the Board. It liaises between the Chair and the full Board of Directors in order to act as a consultant body to the Chair and to expedite whenever necessary the handling of the Company's business. The Committee regularly reviews the corporate governance of the Company and prepares recommendations for the Board. It also advises on certain finance-related matters including the Company's financing and financial management and periodically reviews its asset and liability management. It receives regular reports on other risk-related topics.

While the Committee has limited authority as per the Board Regulations, it may in exceptional and urgent matters deal with business matters which might arise between Board meetings. In all cases, it keeps the Board fully apprised. It reviews the Board's annual work plan.

Compensation Committee

The Compensation Committee consists of a Chair and a minimum of three non-executive members of the Board. All members are independent (art. 19^{bis} par. 1 of the Articles of Association). The members of the Compensation Committee are elected individually by the General Meeting for a term of office until completion of the next Annual General Meeting. Members of the Compensation Committee whose term of office has expired are immediately eligible for re-election. The Compensation Committee determines the system and principles for remuneration of the members of the Board of Directors and submits them to the Board for approval. It reviews and discusses the remuneration principles for Nestlé S.A. and the Nestlé Group. It prepares the proposals of the Board to be submitted for approval by

(a) For complete information, please refer to the Board Regulations and Committee Charters at www.nestle.com/investors/corporate-governance/boardcommittees

the General Meeting in relation to the compensation of the Board of Directors and the Executive Board. In addition, it proposes the remuneration of the Chair of the Board and the CEO, and approves the individual remuneration of the members of the Executive Board. It reports on its decisions to the Board and keeps the Board updated on the overall remuneration policy of the Nestlé Group. It reviews the annual Compensation Report.

Nomination Committee

The Nomination Committee consists of a Chair, who is an independent and non-executive member of the Board, preferably the Lead Independent Director; the other members are the Chair of the Board of Directors and a minimum of two independent and non-executive members of the Board. The Nomination Committee oversees the long-term succession planning of the Board, establishes the principles and criteria for the selection of candidates to the Board, performs a regular gap analysis, selects candidates for election or re-election to the Board and prepares a proposal for the Board's decision. It is regularly supported by external search firms.

The succession planning for the Board of Directors is highly structured and seeks to ensure a balance of relevant competencies and an appropriate diversity of its members. The Nomination Committee regularly reviews the Company's skills and diversity grid (see 3.1. above) and ensures appropriate cognitive diversity. It ensures an appropriately wide net is cast on key successions. The candidates to the Board must possess the necessary profile, qualifications and experience to discharge their duties. Newly appointed Board members receive an appropriate introduction to the business and affairs of the Company and the Group. If required, the Nomination Committee arranges for further training.

The Nomination Committee reviews, at least annually, the independence of the members of the Board as well as their outside mandates, and prepares the annual self-evaluation of the Board and its Committees. It meets as frequently as necessary to fulfil its tasks and prepares the relevant *in-camera* sessions of the Board of Directors.

Sustainability Committee

The dedicated Sustainability Committee consists of a Chair, who is an independent and non-executive member of the Board, and a minimum of two non-executive members of the Board.

The Sustainability Committee gives advice on measures which ensure the long-term sustainability of the Company in its economic, social and environmental dimension and monitors the Company's performance against selected external sustainability indexes. While the full Board approves the Company's Report on Non-Financial Matters for submission to the Annual General Meeting, the Sustainability Committee has oversight over the structure and content of the Company's ESG/sustainability reporting. It discusses periodically how material non-financial issues affect the Company's financial performance and how its long-term strategy relates to its ability to create shared value. It reviews the Company's response to climate change and other environmental issues, it ensures the Company carries out human rights due diligence and reports on its most severe human rights risks, and it reviews the Company's diversity and inclusion and employee health and well-being. It meets at least four times a year and as frequently as necessary to fulfil its tasks. It keeps the Board updated on the material issues affecting the long-term sustainability of the Group.

Audit Committee

The Audit Committee consists of a Chair, who is an independent and non-executive member of the Board, and a minimum of two other non-executive members of the Board, excluding the CEO and any former member of the Executive Board. All members shall be independent. At least one member has to have recent and relevant financial expertise, the others must be familiar with the issues of accounting and audit. In discharging its responsibilities, the Audit Committee has unrestricted access to the Company's management, books and records. The Audit Committee supports the Board of Directors in its supervision of financial controls through a direct link to the external auditors (EY) and Nestlé Internal Audit (corporate internal auditors). It has oversight over the accuracy of the Company's financial and ESG/sustainability reporting.

The Audit Committee's main duties include the following:

- to review, and challenge where necessary, the actions and judgements of management, in relation to the Company's year-end financial accounts and where necessary interim accounts;
- to make recommendations to the Board of Directors regarding the nomination of external auditors to be appointed by the shareholders;
- to discuss the audit procedures, including the proposed scope and the results of the internal and external audit;
- to keep itself regularly informed on important findings of the audits and of their progress;
- to oversee the quality of the internal and external auditing;
- to present the conclusions on the approval of the Financial Statements to the Board of Directors;
- to review reports regarding internal controls, compliance, fraud, enterprise risk management and the Group's annual risk assessment.

The Audit Committee regularly reports to the Board on its findings and proposes appropriate actions. The responsibility for approving the annual Financial Statements remains with the Board of Directors.

3.5.3. Work methods of the Board of Directors and its Committees

The Board meets as often as necessary, at least quarterly, and on notice by the Chair or by the person designated by him. In addition, the Board must be convened as soon as a Board member requests the Chair to call a meeting. All Committees provide a detailed report to the full Board at each meeting in a dedicated Chair's session. The Board regularly meets for *in camera* sessions (without CEO) and independent director meetings (without Chair and CEO).

The Board reserves at least one day per year to discuss the strategic long-term plan of the Company. In addition, every year, the Board visits one Nestlé Market for three to five days (in 2023, Nestlé in Mexico). During the pandemic, the Board met virtually or in hybrid meetings and additional ad hoc meetings and reports were introduced.

The average attendance at the Board meetings in 2023 was 99%. All Board meetings, with the exception of certain Chair's and *in camera* sessions, are attended by all members of the Executive Board. In addition, members of the Executive Board and senior management participate in Committee meetings, if appropriate, when a Committee discusses matters in relation to their respective responsibilities. The CEO may partially attend the meetings of the Audit Committee, the Nomination Committee, the Sustainability Committee and the Compensation Committee as an invited guest, except on matters where he may have a conflict of interest. Furthermore, both the external auditor and the Head of Nestlé Internal Audit participate in the Audit Committee meetings except for regular *in camera* sessions. No external subject matter experts were invited to the Board and Committee meetings in 2023.

The Company performs annual self-evaluations of the Board and its Committees, including confidential, anonymous feedback and individual interviews. Findings are appropriately addressed. An open, transparent and critical board room culture forms the basis for the Board of Directors' annual review of its own performance and effectiveness. The Board of Directors conducts the self-assessment on the basis of anonymous questionnaires which deal with the Board's composition, organization and processes, the Board's responsibilities governed by the Board Regulations as well as the focus areas and goals of the year under review. The topics are discussed and take-aways defined to be incorporated in the goals for the upcoming year. In addition, each Board Committee annually reviews the adequacy of its composition, organization and processes as well as the scope of its responsibilities, assesses its accomplishments and evaluates its performance. For example, the Board created a dedicated Sustainability Committee as a result of its self-assessment process.

3.5.4. Lead Independent Director

The Lead Independent Director assumes the role of a prime intermediary between the Board and the Chair. He may convene and chair Board meetings and *in camera* sessions, where the Chair is not present. He serves as an advisor to the Chair and acts as an intermediary between the Chair, the Board and the Board's stakeholders. He chairs meetings of the independent directors to evaluate the performance of the Chair and the effectiveness of the relationship between the Chair and the CEO.

3.6 Definition of areas of responsibility

The governing bodies have responsibilities as follows:

3.6.1. Board of Directors ⁽¹⁾

The Board of Directors is the ultimate governing body of the Company. It is responsible for the long-term strategy and the ultimate supervision of the Group. It oversees the Group's economic, social and environmental sustainability. The Board attends to all matters which are not reserved for the Annual General Meeting or another governance body of the Company by law, the Articles of Association or specific regulations issued by the Board of Directors.

Under Nestlé's governance model, the CEO (Administrateur délégué) is a full member of the Board of Directors, ensuring full alignment on its critical responsibilities and proper checks and balances between the Chair and CEO.

The Board has the following main duties:

- the review of and decision on any report submitted to the Board;
- the Group's annual risk assessment; and
- the compensation proposals to the General Meeting.

3.6.2. Executive Board

The Board of Directors delegates to the CEO, with the authorization to subdelegate, the power to manage the Company's and the Group's business, subject to law, the Articles of Association and the Board Regulations.

The CEO chairs the Executive Board and delegates to its members individually the powers necessary for carrying out their responsibilities, within the limits fixed in the Executive Board Regulations.

3.7 Information and control instruments vis-à-vis the Executive Board

The Board of Directors is, at each of its meetings, informed on material matters involving the Company's and the Group's business. Except for regular *in camera* sessions, the members of the Executive Board attend the Board of Directors meetings and report on current developments, significant projects and events. Other members of management attend Board meetings to report on the areas of the business for which they are responsible. Each Board member is entitled to request and receive information from the CEO and from other members of the Executive Board. In preparation for each Board meeting, the Board is provided with an overview of business performance and consolidated financial information. In addition, regular written reports by the Executive Board are provided, including e.g. capital investment, risk, audit, compliance and strategy progress reports. The Chair and the CEO ensure the proper information flow between the Executive Board and the Board of Directors.

The Board pays a visit to a major Market every year, where it meets members of senior management. The Board visited the United States in 2018, the Swiss Market in 2019 and 2021, Nestlé India in 2022 and Nestlé Mexico in 2023.

The Chair receives the agenda, documents and minutes of the meetings of the Executive Board as well as of the Key Markets and senior management meetings. He has regular meetings with the CEO and may request information about any matters relating to the Company. He may examine reports, proposals and minutes of meetings of any functions or committees of the Corporate Center or the Markets or businesses.

(1) For complete information, please refer to the Board Regulations and Committee Charters at www.nestle.com/investors/corporate-governance/boardcommittees

The Chair's and Corporate Governance Committee is regularly informed about the strategic management of the Group's financial assets and liabilities and financial risk policies. It performs twice a year a review of the assets and liabilities management by the Company's treasury, pensions and insurance departments with the Chief Financial Officer and the Head of Treasury, Pensions & Insurance being present.

The Audit Committee reviews the financial performance and assesses the effectiveness of the internal and external audit processes as well as the internal risk management organization and processes. It has oversight over the accuracy of the financial and non-financial reporting. It reviews reports on the Company's internal control, compliance and risk management processes. It has complete and unrestricted access to the Company's management, books and records and may obtain any information it requires from the appropriate services. Members of the Executive Board and other senior management, in particular the Heads of Group Accounting & Reporting, Internal Audit and Legal and Compliance, attend the Audit Committee meetings, except for certain *in camera* sessions.

The Nomination Committee leads the succession planning for the Board of Directors.

The Sustainability Committee reviews reports on measures that ensure the long-term sustainability of the Company in its economic, social and environmental dimension. It has oversight over the structure and content of the ESG/sustainability reporting and monitors the Company's performance against selected external sustainability indexes. It oversees the Company's response to climate change, its human rights program and human capital management. Members of management, in particular the CEO, the Heads of Public Affairs and of Legal and Compliance, may attend the meetings.

The Compensation Committee reviews the Company's compensation system and principles. The Head of Human Resources may attend the meetings, except when questions of compensation for Executive Board members are deliberated.

Additional information and control instruments include the external auditors, Ernst & Young Ltd, auditors of Nestlé S.A. and of the Consolidated Financial Statements of the Nestlé Group, who conduct their audit in compliance with Swiss law and in accordance with Swiss Auditing Standards and International Standards on Auditing, and the Nestlé Internal Audit function.

Nestlé Internal Audit comprises an organization of one Center Team and eight regional units of auditors covering all the businesses (i.e., head offices, factories, distribution

centers and business units) worldwide, completing audit assignments on the basis of the annual internal audit plan based on an independent risk assessment that is approved by the Audit Committee.

The role of Nestlé Internal Audit is to enhance and protect organizational value by providing risk-based and objective assurance, advice and insight, contributing to the continuous improvement of the Company's risk management and control systems. Nestlé Internal Audit assesses the reliability of financial and operational information, the effectiveness of controls and processes for compliance with internal, legal, regulatory and statutory requirements. Findings are communicated in the form of an audit report, which is shared with management and the Audit Committee.

The Head of Nestlé Internal Audit reports administratively to the Chief Financial Officer and has a functional reporting line to the Chair of the Audit Committee. He reports at all the Audit Committee meetings, has direct access to the Chair of the Audit Committee and regularly meets with him for interim updates. The Audit Committee regularly receives a report on the results of the internal auditors' work that is also provided to the Chair of the Board of Directors, Executive Board members and other stakeholders. It reviews and monitors management's responsiveness to internal audit findings and recommendations. In case of major findings, a follow-up audit is planned to ensure proper remediation.

Group Risk Management provides assistance to all corporate entities with regard to risk management. Group Risk Services provides assistance to all corporate entities with regard to loss prevention, claims handling and insurance. Enterprise Risk Management (ERM) is a process applied across the Group, designed to identify potential events that may affect the Group's achievement of its strategic objectives and support the Group to ensure it acts in accordance with external regulations and internal policies. It supports Nestlé's management to raise risk awareness and to anticipate emerging risks, as well as the process of identifying appropriate mitigation actions.

The Nestlé Group adopts a dual approach using "Top-Down" and "Bottom-Up" assessments. The "Top-Down" assessment occurs annually and focuses on the Group's global risks. A "Bottom-Up" assessment occurs in parallel, resulting in the aggregation of individual assessments by all Markets, Regionally and Globally Managed Businesses.

Additionally, Nestlé engages with external stakeholders to better understand the issues that are of most concern to them. For each issue, the materiality matrix (please refer to www.nestle.com/materiality) rates the degree of stakeholder concern and potential business impact.

Group ERM combines the output of the “Top-Down” assessment, the “Bottom-Up” assessments and the external stakeholder assessments which is presented annually to the Executive Board. The Annual Risk Report is reviewed by the Audit Committee, and material risks are reviewed by the Board of Directors on an annual basis.

For more information on the Nestlé Group Enterprise Risk Management, please refer to page 50 of the Annual Review 2023.

Group Compliance and other risk- and control-related functions provide additional guidance and oversight. Risk and compliance activities are coordinated through the Group Compliance Committee to ensure a holistic, entity-wide approach. The Audit Committee is provided yearly with the Group Compliance Report, a comprehensive documentation of the Company’s compliance framework, systems, activities and improvement actions pursued by the various functions. It includes a summary of the feedback received on the Group’s integrity reporting system as well as the functional third-party compliance audits (CARE). The Group Compliance Report is also reviewed by the Board of Directors.

For more information on the Group’s Governance and Compliance, please refer to pages 57 and 62 of the Annual Review 2023.

6.2 Quorums required by the Articles of Association

Please refer to art. 13 of the Articles of Association.

The audit report is signed jointly by two EY partners on behalf of EY. 2020 was the first year that Jeanne Boillet, in her capacity as lead auditor, signed the Financial Statements of Nestlé S.A. and the Consolidated Financial Statements of the Nestlé Group. The lead auditor is rotated every seven years in accordance with Swiss law.

8.2 Auditing fees

The auditing fees paid to EY in their capacity as Group auditors for 2023 amount to CHF 36.1 million including fees for services related to the review of Environmental, Social and Governance (ESG) information.

8.3 Additional fees

In addition, EY provided non-audit services amounting to CHF 9.4 million, including CHF 6.1 million for tax services, CHF 1.2 million for IS/IT advisory support, CHF 0.6 million for mergers and disposals services, and CHF 1.5 million for other various non-audit services.

8.4 Information instruments pertaining to the external audit

EY presents to the Audit Committee a detailed report on the conduct of the Financial Statements audit, the findings on significant financial accounting and reporting issues together with the findings on the internal control system, as well as an overview of issues found during the interim audit.

In 2023, EY participated in four Audit Committee meetings, including sessions with the Audit Committee without the Group's management being present.

The Audit Committee assesses the effectiveness of the work of the auditors in accordance with Swiss law, based on their understanding of the Group's business, control, accounting and reporting issues, together with the way in which matters significant at Group level or in the statutory accounts are identified and resolved.

The Audit Committee is also informed on the work of the auditors through regular briefings of its Chair. Audit fees are ultimately approved by the Audit Committee.

The Group and EY have agreed on clear guidelines for non-audit services which are permitted for EY to provide. These services include sell-side and carve-out support on disposals and certain tax and business risk assurance and IT advisory support. These guidelines ensure EY's independence in their capacity as auditors to the Group. EY monitors its independence throughout the year and confirms its independence to the Audit Committee annually.

Investor Relations – guiding principles

Nestlé is committed to open and consistent communication with shareholders and other interested parties. The objective is to ensure that the perception of those parties about the historical record, current performance and future prospects of Nestlé is in line with management's understanding of the actual situation at Nestlé. The guiding principles of this policy are that Nestlé gives equal treatment to shareholders in equal situations, that any price-sensitive information is published in a timely fashion, and that information is provided in a format that is as full, simple, transparent and consistent as possible.

Methodology

Each year, Nestlé produces a detailed Annual Report, which consists of i) the Annual Review, ii) the Consolidated Financial Statements of the Nestlé Group, iii) the Financial Statements of Nestlé S.A., iv) the Corporate Governance Report, and v) the Compensation Report. The Consolidated Financial Statements are prepared according to the IFRS Accounting Standards. The Half-Year Report, consisting of the Half-Year Income Statement, Balance Sheet and Cash Flow Statement, complements the Annual Report. The Company also annually issues its Creating Shared Value and Sustainability Report, which includes reporting on non-financial matters in accordance with the Swiss Code of Obligations.

Nestlé publishes its Financial Statements for the full-year and the half-year. Additionally, the Company publishes its sales figures for the first three months and nine months. Press releases accompany the financial results and sales announcements, and are also issued at the time of potentially price-sensitive events, such as significant acquisitions and divestments, joint venture agreements or alliances. These communications are publicly available on the internet. Major announcements, such as results of corporate activity and investor seminars, are accompanied by a presentation broadcast "live" on the internet.

Furthermore, Nestlé has an active investor relations (IR) program. Throughout the year, IR engages with investors (current or prospective) and relevant sell-side analysts in virtual and in-person meetings, conference calls, roadshows, broker conferences, or other events. In certain cases, members of management might also participate in some meetings with the financial community, including group and one-to-one meetings. Topics of discussion may include recently announced financial results, recent corporate activity, or the longer-term strategy of the Group; they are not an occasion for the disclosure of new information which might encourage investment decisions. Specifically on governance topics, the Company engages in an active dialogue with investors through regular Chairman's Roundtables, surveys, and bilateral exchanges, which are reported to the Chair's and Corporate Governance Committee or the Board.

The Company uses its website (www.nestle.com/investors) to ensure rapid and equitable distribution of information. There are also links to non-financial information that may be of interest to investors, including areas such as the environment, sustainability, and news about brands and innovation. A corporate calendar of relevant dates is displayed on page 63 of the Annual Review 2023 and available on the IR events pages (www.nestle.com/investors/events).

Compensation Report 2023

Compensation Report 2023

Introduction

The future success of Nestlé is dependent on its ability to attract, motivate and retain the right talented employees. Among the various programs to support this ambition is a competitive remuneration policy. Nestlé believes in a performance culture as well as good corporate governance and corporate social responsibility.

Therefore, remuneration at Nestlé is based on the following principles:

- pay for performance to support the Company's short-term and long-term objectives;
- compensation aligned with long-term Group strategy and shareholders' interests;
- coherence in our remuneration plans and levels throughout the Company;
- competitiveness versus external market comparisons;
- appropriate balance of fixed and variable remuneration and short-term and long-term rewards.

This Compensation Report shall be submitted to the advisory vote of the shareholders at the Annual General Meeting 2024.

At the 2023 Annual General Meeting, shareholders approved the total compensation budgets for the Board of Directors and the Executive Board with large majorities.

To ensure complete accountability, the shareholders will be able to retrospectively vote on the Compensation Report and payouts in a consultative vote.

Changes to compensation

For 2023, we have added an ESG-related KPI as a fourth performance metric in the Long-Term Incentive Plan for 20% of its grant value and increased the disclosure on the target achievements under our short- and long-term incentive plans.

Governance

The Board of Directors has the overall responsibility for defining the compensation principles used in the Group. Pursuant to art. 21^{bis} of Nestlé S.A.'s Articles of Association ^(*), the total compensation of the Board of Directors and the Executive Board is subject to approval by the shareholders, upon proposal by the Board of Directors.

As of December 31, 2023, the governance for setting the compensation of the members of the Board of Directors and the Executive Board is defined as follows:

Compensation of	Recommended by	Approved by
Board of Directors as a whole	Board of Directors	Shareholders
Executive Board as a whole	Board of Directors	Shareholders
Chair of the Board, CEO	Compensation Committee	Board of Directors ^(a)
Non-executive members of the Board of Directors	Compensation Committee	Board of Directors ^(b)
Members of the Executive Board	CEO together with Chair	Compensation Committee ^(c)

(a) Chair as well as CEO not voting on own compensation, and not participating in the relevant meetings.

(b) Members not voting on own compensation to the extent that Committee fees are concerned.

(c) Executive Board members not participating in the relevant meetings.

Compensation Committee (CC)

The CC is governed by the Compensation Committee Charter (see point 3.5.2 in the Corporate Governance section). The Committee consists of the Chair, who is an independent and non-executive member of the Board. The other members shall be a minimum of three other non-executive members of the Board.

The members of the CC have been elected by the shareholders for one year. The Chair was appointed by the Board of Directors. On December 31, 2023, the composition of the CC is as follows:

Chair	Members
Pablo Isla	Patrick Aebischer
	Dick Boer
	Dinesh Paliwal

The tasks and areas of responsibility of the CC are described on page 14 of the Corporate Governance Report 2023.

Board of Directors

Principles of compensation for the members of the Board of Directors

Governance

Pursuant to art. 21^{bis} par. 1 of Nestlé S.A.'s Articles of Association, the General Meeting shall approve annually the proposal of the Board of Directors in relation to the maximum aggregate amount of the compensation of the Board of Directors for the period until the next Annual General Meeting ^(a).

In the event the General Meeting has not approved a proposal of the Board of Directors, the Board of Directors shall determine the respective maximum aggregate amount or maximum partial amounts of compensation provided that:

- a) the Board of Directors takes into account (i) the proposed maximum aggregate amount of compensation; (ii) the decision of the General Meeting and, to the extent known to the Board of Directors, the main reasons for the negative vote; and (iii) Nestlé's compensation principles; and
- b) the Board of Directors submits the amount(s) so determined for approval by the same General Meeting, a subsequent Extraordinary General Meeting or the next Annual General Meeting (art. 21^{bis} par. 2 of the Articles of Association).

The compensation of the members of the Board of Directors is subject to "claw back" rules in accordance with art. 678 of the Swiss Code of Obligations. Members of the Board of Directors could be obligated to return benefits received from the Company to the extent that these are manifestly disproportionate to the performance rendered in return and to the Company's economic situation (including as a result of fraud or accounting misstatement).

Principles

The remuneration of the members of the Board of Directors is set to attract and retain highly qualified individuals to serve on the Board of Directors. The level of remuneration reflects the time and effort required from the members in fulfilling their Board and Committee responsibilities. The pay structure (cash and blocked shares) is designed to ensure the Board's focus on the long-term success of the Company. There is no variable compensation for non-executive members of the Board of Directors, in order to ensure a proper level of independence.

The principal benchmark used to define Board remuneration is a selection of large Swiss Market Index (SMI) companies ^(b), adjusted for the size of Nestlé. These figures are periodically reviewed against this benchmark.

Executive Board

Principles of compensation for members of the Executive Board

Governance

Pursuant to art. 21^{bis} par. 1 of Nestlé S.A.'s Articles of Association (*), the General Meeting shall approve annually the proposal of the Board of Directors in relation to the maximum aggregate amount of the compensation of the Executive Board for the following financial year (**).

In the event the General Meeting has not approved a proposal of the Board of Directors, the Board of Directors shall determine the respective maximum aggregate amount or maximum partial amounts of compensation, provided that:

- a) the Board of Directors takes into account: (i) the proposed maximum aggregate amount of compensation; (ii) the decision of the General Meeting and, to the extent known to the Board of Directors, the main reasons for the negative vote; and (iii) Nestlé's compensation principles; and
- b) the Board of Directors submits the amount(s) so determined for approval by the same General Meeting, a subsequent Extraordinary General Meeting or the next Annual General Meeting (art. 21^{bis} par. 2 of the Articles of Association).

If the maximum aggregate amount of compensation already approved by the General Meeting is not sufficient to also cover compensation of one or more members who become members of or are being promoted within the Executive Board during a compensation period for which the General Meeting has already approved the compensation of the Executive Board, Nestlé or companies controlled by it shall be authorized to pay such member(s) a supplementary amount during the compensation period(s) already approved. The total supplementary amount shall not exceed 40% of the aggregate amount of compensation of the Executive Board last approved by the General Meeting per compensation period (art. 21^{ter} of the Articles of Association).

Principles

The principles of compensation for members of the Executive Board are the following:

Pay for performance

The Total Direct Compensation for the members of the Executive Board includes a fixed portion (Annual Base Salary) and a variable portion (Short-Term Bonus and Long-Term Incentives). The fixed compensation takes into account individual performance. Variable compensation is determined based on collective and individual performance. These are intended to ensure a major part of executive rewards are contingent on achieving demanding performance goals.

Alignment with long-term company strategy and shareholder interests

Compensation for members of the Executive Board is aligned with company strategy and shareholders' interests. The Short-Term Bonus payout is determined by the degree of achievement of a number of objectives aligned to annual business plans. Long-Term Incentives are provided in the form of share-based instruments, therefore ensuring alignment with shareholders' interests. In 2023, the main Long-Term Incentive instrument was the Performance Share Unit Plan (PSUP). PSUs have a vesting period of three years, with a further holding period of two years for Executive Board members, leading to a total restriction period of five years. Their alignment with shareholder interests is reinforced through payouts being tied to underlying Earnings per Share (EPS) growth, relative Total Shareholder Return (TSR) performance, Return on Invested Capital (ROIC) and reduction in greenhouse gas emissions.

Coherence in remuneration plans and levels throughout the Company

The Company aims to align remuneration plans across the Group and to ensure that compensation rewards are appropriate for the added responsibilities of positions held. This is reflected in the relative remuneration levels of the Executive Board.

(*) Nestlé S.A.'s Articles of Association can be found on page 61 and at www.nestle.com/investors/corporate-governance/articles

(**) The Board of Directors may submit for approval by the General Meeting deviating or additional proposals relating to the same or different periods.

Compensation to be internationally competitive by using selected benchmarks

The compensation packages for the members of the Executive Board need to be competitive in a dynamic international environment. Nestlé targets its overall remuneration policy to be between the median and the 75th percentile of the selected external benchmarks (please refer to page 50). Whenever appropriate, the benchmark values are adjusted for the size of Nestlé. The market competitiveness of the compensation of the Executive Board is therefore periodically assessed using the services of Willis Towers Watson, a reputed international human capital and benefits consultancy.

The total compensation package consists of the following elements:

1. Base Salary

The Base Salary is the foundation of the total compensation. It reflects the experience, expertise and sustained performance of the Executive Board member, as well as taking into account external market competitiveness. It also serves as the basis for determining the Short-Term Bonus target levels and the allocation of Long-Term Incentives. The Base Salary is reviewed annually by the Compensation Committee. Criteria for adjustments are individual contribution and the level of competitiveness against the benchmarks.

2. Short-Term Bonus

The Short-Term Bonus is intended to reward results achieved against annual collective and individual objectives related to Nestlé's overall business strategy. The Short-Term Bonus is paid in cash and/or in Nestlé S.A. shares (*), which are subject to a three-year blocking period.

Governance

Pursuant to art. 21^{quater} of Nestlé S.A.'s Articles of Association (**), variable compensation may comprise short-term compensation elements, and shall be subject to caps expressed as predetermined multipliers of the respective target levels.

Short-term compensation elements are governed by performance metrics that take into account the performance of Nestlé and/or parts thereof, targets in relation to the market, to other companies or to comparable benchmarks and/or individual targets, and achievement of which is generally measured based on a one-year period. The annual target level of the short-term compensation elements is determined as a percentage of the Base Salary; depending on achieved performance, the compensation may amount up to a pre-determined multiplier of target level.

The Board of Directors or, to the extent delegated to it, the Compensation Committee, determines performance metrics and target levels, and their achievement.

Objectives 2023

The Short-Term Bonus (Annual Bonus) is based on a bonus target expressed in % of the Annual Base Salary.

In 2023, the following target levels were applicable

- CEO: 150%;
- Executive Vice President: 100%;
- Deputy Executive Vice President: 80%.

For the CEO and the CFO, 85% of the target is linked to performance against the Nestlé Group objectives (see below) and 15% to Environmental, Social and Governance (ESG) objectives. For the other members of the Executive Board, at least 35% of the target is linked to business performance, to ensure accountability for Nestlé's results, for Function Heads, 50% is tied to functional objectives, 35% to Group performance and 15% to ESG objectives; for Zone or Business Heads, 60% is tied to business objectives they are directly responsible for, 25% to Group performance and 15% to ESG objectives.

In case an executive reaches all objectives in full, the bonus payout will correspond to the targeted level. If one or more objectives are not reached, the bonus is reduced. The bonus payout is capped at a maximum of 130% of the target. There is no guarantee for the payout of a minimum bonus.

Members of the Executive Board can elect to receive part or all of their Short-Term Bonus in Nestlé S.A. shares (*). The CEO has to take a minimum of 50% in shares.

The number of shares granted is determined using the average market closing price of the last ten trading days of January 2024.

Group objectives

Every year, the Board of Directors defines a set of key quantitative operational objectives, which comprise the main elements in determining the annual Group performance for the following year. These are linked to measurable financial objectives. In 2023, their weighting was 60% Organic Growth and 40% Profitability (Underlying Trading Operating Profit margin).

Additional quantitative and qualitative objectives, set by the Board of Directors in line with Nestlé's strategy, are also used to determine the Nestlé Group performance. This set of additional objectives reflects Nestlé's Creating Shared Value framework and includes the proportion of products with Nutrition, Health & Wellness benefits, market shares, capital expenditure, structural cost optimization, progress on digitalization, strengthening Nestlé's values and culture, and further progress on quality, safety, sustainability and compliance.

The above objectives are kept under review by the Board of Directors to ensure that they are aligned with Nestlé's business objectives and its strategic ambition.

Business and functional objectives

Business and functional objectives are determined by the CEO for each member of the Executive Board. They are related to the individual area of responsibility and are of a financial or non-financial nature.

Environmental, Social and Governance (ESG) objectives

ESG objectives (15% of the target) are set annually by the Compensation Committee and reflect selected performance measures from the Company's ESG/Sustainability agenda. For 2023, they relate to affordable nutrition with micro nutrients, reduction of greenhouse gas emissions, plastic packaging designed for recycling, reduction of water use in factories and management positions held by women. These five objectives are equally weighted at 3% each.

(*) or American Depositary Receipts

3. Long-Term Incentives

Long-Term Incentives are intended to reward sustained business success and overall shareholder value creation as well as to retain key senior management members.

Governance

Pursuant to art. 21^{quater} of Nestlé S.A.'s Articles of Association ^(*), variable compensation may comprise long-term compensation elements, and shall be subject to caps expressed as pre-determined multipliers of the respective target levels.

Long-term compensation elements are governed by performance metrics that take into account strategic objectives of Nestlé, achievement of which is generally measured based on a multi-annual period. The annual target level of the long-term compensation elements is determined as a percentage of the Base Salary; depending on the achieved performance, the compensation may amount up to a pre-determined multiplier of the target level. Vesting periods, as determined by the Board of Directors or, to the extent delegated to it, the Compensation Committee, shall be at least three years. See further art. 21^{quater} par. 6 to par. 8 of the Articles of Association.

The Board of Directors or, to the extent delegated to it, the Compensation Committee determines performance metrics and target levels, and their achievement.

Target levels 2023

In 2023, members of Nestlé's Executive Board were eligible to receive Long-Term Incentives in the form of Performance Share Units under the Performance Share Unit Plan (PSUP). The grant value for Long-Term Incentives in 2023 was the following:

- CEO: 150% of the Annual Base Salary
- Executive Vice President and Deputy Executive Vice President: 100% of the Annual Base Salary

The PSUP provides units which entitle participants to receive Nestlé S.A. shares at the end of the three-year vesting period. These shares remain blocked for a further period of two years for Executive Board members.

The level at which PSUs vest is determined by the degree by which the four performance measures of the PSUP are met over the full three-year vesting period. These four criteria are:

- the growth of underlying Earnings per Share (EPS) in constant currencies;
- the relative Total Shareholder Return (TSR) of the Nestlé S.A. share in relation to the STOXX Global 1800 Food & Beverage Gross Return Index;
- the Return on Invested Capital (ROIC) and
- the reduction in greenhouse gas emissions.

Growth of underlying Earnings per Share, Total Shareholder Return performance in relation to peers, Return on Invested Capital and reduction in greenhouse gas emission are commonly used measures to determine senior management long-term performance in the industry. Growth of underlying Earnings per Share will be weighted at 40%, Total Shareholder Return Performance, Return on Invested Capital and reduction in greenhouse gas emissions at 20% respectively to determine the vesting level of the initial PSU award.

All four performance measures will be subject to Compensation Committee review in case of extraordinary events.

The PSUP covers the Executive Board, Senior Vice Presidents and selected Vice Presidents and Assistant Vice Presidents. A Restricted Stock Unit Plan (RSUP) applies to all other participants.

(*) Nestlé S.A.'s Articles of Association can be found on page 61 and at www.nestle.com/investors/corporate-governance/articles

The following charts show the different potential levels of achievement for each of the four measures for the 2023 PSUP grant.

The total vesting level will be determined by applying, at the end of the vesting period, a weight of 40% for Underlying EPS, 20% for TSR, 20% for ROIC of the grant and 20% for the reduction of greenhouse gas emissions, and by adding up the four elements.

The vesting range of the PSU starts at 0% and is capped at 200% of the initial PSU award, thus providing alignment with strategy and shareholders' interests, as well as ensuring competitiveness versus external market comparisons.

Overview of Executive Board compensation elements

CEO

(*) Payable between 50% and 100% in Nestlé S.A. shares with a three-year blocking period.
 (**) Subject to a two-year holding period after the three-year vesting period.

Executive Vice Presidents

(*) Payable between 0% and 100% in Nestlé S.A. shares with a three-year blocking period.
 (**) Subject to a two-year holding period after the three-year vesting period.

Maximum payout:

- Short-Term Bonus: capped at 130% of the target;
- PSUP: vesting ranges from 0% to 200% of the initial PSU award.

4. Other Incentive Plans

For the Head of Nestlé Health Science, the LTI target grant values are the same as mentioned above, but are split between PSUP (30% of grant value) and the specific Long-Term Incentive Plan of Nestlé Health Science (70% of grant value). Nestlé Health Science has a Phantom Share Unit Plan based on the long-term development of that business, with a vesting period of three years, and a value capped at two times the Unit price at grant.

The Head of Zone North America also participates in the Nestlé US Short-Term and Long-Term Incentive Plans for 75% of his total grant value. The Nestlé US Short-Term Incentive Plan is capped at 150% of target based on performance. The Nestlé US Long-Term Incentive Plan, which has a target value of 250%, is a Phantom Share Unit Plan based on the long-term results of Nestlé S.A. The vesting range of these US Performance Share Units (US PSUs) starts at 0% and is capped at 200% based on Nestlé's results against Earnings Per Share and Total Shareholder Return performance measures. US PSUs have a three-year vesting period and are cash settled following the third

anniversary of the grant date. These terms reflect the dynamics in our largest market and are comparable to the terms applicable for employees in similar positions in the US.

5. Other benefits

Typical elements are a car allowance, long-term service awards in line with Company policy as well as contributions towards health insurance premiums and periodical health checks as well as personal security services. Health insurance premiums of the Heads of Zone North America and Zone Greater China, the Chief Communications Officer and the Head of Operations are paid by the Company. They also receive a financial planning allowance. Those Executive Board members who have been transferred to Switzerland from other Nestlé locations are eligible to receive benefits provided by Nestlé's expatriation policies. The Heads of Zone North America and Zone Greater China receive a housing allowance. The Head of Zone North America also receives certain additional benefits including contributions to life insurance and other benefits available to employees in similar positions in the US.

6. Pension benefits

Executive Board members are affiliated to the Nestlé Pension Plan in Switzerland like all other employees, except for the Head of Operations, who is affiliated to the Expatriate Swiss Life Pension Plan in Switzerland, and the Chief Communications Officer. The Heads of Zone North America and of Zone Greater China are also affiliated to the local pension plans, as are the Chief Communications Officer and the Head of Operations, who remained on US pension plans in line with Nestlé's Corporate Expatriation Policy. The employer's contributions for future pension benefits are included in the compensation amount.

Pensionable earnings include the Annual Base Salary, but not the variable compensation (Short-Term Bonus or Long-Term Incentives). Any part of the Annual Base Salary which exceeds the ceiling prescribed by Swiss Pension Law is covered directly by the Company.

Benchmarks of Executive Board compensation

Any benchmark needs to take into account Nestlé's overall size, its sector and geographic location. The Compensation Committee has therefore decided that the most appropriate way to assess the competitiveness of the compensation for the Executive Board is by comparing it against the STOXX Europe 50 index (excluding financial services) as the primary benchmark (*), while taking account of trends in executive remuneration in the European Fast Moving Consumer Goods and pharma companies. Reflecting the Company's size (revenue and headcount), Nestlé's competitive position has been evaluated with reference to the 75th percentile of the benchmark.

Share ownership policy

Following an appropriate build-up period, each Executive Board member is required to hold shares at least equal to twice his/her annual base salary, absent specific circumstances. The CEO is required to hold shares at least equal to five times his Annual Base Salary.

An additional two-year blocking period is imposed on Nestlé S.A. shares delivered to Executive Board members upon vesting of PSUs, bringing the total restriction period to five years. The blocking period remains applicable upon termination of employment.

Loans

The Company does not, as a rule, grant loans, except that it may provide advances, generally repayable over a three-year period to members of the Executive Board who have been transferred to Switzerland from other Nestlé locations in line with the Nestlé Corporate Expatriation Policy.

Loans to Executive Board members may only be granted at market conditions and may, at the time of grant, not exceed the respective member's most recent total annual compensation (art. 21^{septies} of the Articles of Association).

Contracts of employment and severance payments

Members of the Executive Board are subject to a notice period of 12 months. During this time, unless there was termination for cause, entitlement to the Annual Base Salary and prorated Short-Term Bonus continues. Long-Term Incentives are forfeited upon voluntary resignation or termination for cause; Long-Term Incentives immediately vest in all other cases of termination of employment. There are no severance payments or change of control provisions ("golden parachutes"). Non-compete provisions are in line with the Articles of Association and are activated by the Company only as necessary on a case-by-case basis.

The compensation of the members of the Executive Board is subject to forfeiture or claw back if the compensation paid or granted is rejected by the General Meeting of Nestlé S.A. in a final vote.

To the General Meeting of
Nestlé S.A., Cham & Vevey

Lausanne, 21 February 2024

Report of the statutory auditor on the audit of the Compensation

Opinion

We have audited the Compensation Report of Nestlé S.A. (the Company) for the year ended 31 December 2023. The audit was limited to the information pursuant to articles 734a-734f of the Swiss Code of Obligations (CO) in the tables labeled “audited” and highlighted with a blue bar on pages 38 to 56 of the Compensation Report.

In our opinion, the information pursuant to Art. 734a-734f CO in the Compensation Report complies with Swiss law and the Company’s articles of association.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the “Auditor’s Responsibilities for the Audit of the Compensation Report” section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the tables marked “audited” in the Compensation Report, the consolidated financial statements, the stand-alone financial statements and our auditor’s reports thereon.

Our opinion on the Compensation report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Compensation Report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the audited financial information in the Compensation Report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of directors' responsibilities for the Compensation Report

The Board of Directors is responsible for the preparation of a Compensation Report in accordance with the provisions of Swiss law and the Company's articles of association, and for such internal control as the Board of Directors determines is necessary to enable the preparation of a Compensation Report that is free from material misstatement, whether due to fraud or error. It is also responsible for designing the remuneration system and defining individual remuneration packages.

Auditor's responsibilities for the Audit of the Compensation Report

Our objectives are to obtain reasonable assurance about whether the information pursuant to Art. 734a-734f CO is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Compensation Report.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the Compensation Report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

- 6 Compensation may be paid or granted in the form of cash, shares, other benefits or in kind; compensation to members of the Executive Board may also be paid or granted in the form of financial instruments or similar units. The Board of Directors or, to the extent delegated to it, the Compensation Committee determines grant, vesting, blocking, exercise and forfeiture conditions; they may provide for continuation, acceleration or removal of vesting and exercise conditions, for payment or grant of compensation assuming target achievement or for forfeiture in the event of predetermined events such as a termination of an employment or mandate agreement.
